Dear Parents/ Carers

We are delighted to share with you that Year 2 are ready to launch Seesaw. To access your Seesaw account open the Seesaw **Class** app on iOS or Android. Or go to app.seesaw.me on any computer in Chrome or Firefox browser.

1. Select "I'm a student".
2. Then enter your home learning code in the space provided. Store codes securely like a password.
3. Students choose their name from the class list to sign in.

When students sign in using their home learning code, they can complete activities, view their journal and view announcements. Any posts students add to their journal will be seen by their teachers who will be able to comment.

Students will **not** be able to see the work of any other student, however if you would like to share learning with other students, you can do this through the blog post section within the app.

As the children are Year 2 age, they will need supervision and support to use Seesaw. However if you would like a family account in addition to the student account, you can activate this through a web browser, go to:

<https://app.seesaw.me/s/172-054-123> This will mean that you are able to comment on their learning using the family account and message the teachers in the inbox section, something that is not available with only the student account. To activate this;

1. Choose your child from the list
2. Create your account
3. Once you're approved by Jennifer Donougher, you'll get access to Seesaw.

If there are any issues signing in, don't hesitate to get in touch.

Many thanks,
Mrs Donougher and Mr Jackson
